

# DKT **FTTH BATTERY 2**

79831 | FTTH backup in case of a power outage

## **DATASHEET**

### UK CE Certified with compliance to applicable UKCA / CE standards

#### INTRODUCTION

The FTTH Battery 2 is the second generation of DKT Battery Back Up Units, it offers one hour of battery backup for 3 devices in any combination of 5V, 9V or 12V and is suitable for wall installation as well as for desktop operation. During normal operation the mains adaptor will provide power for the attached devices and keep batteries at state of charge providing one hour of 30W backup. Typical application is backup for telephony service powering gateway, router and analog telephone adaptor during a mains power outage.

#### PRODUCT OVERVIEW

| Parameter                            |           | DKT FTTH BATTERY 2   |  |
|--------------------------------------|-----------|--|--|
| Outputs                              |           |  |  |
| Power supply protocols supported     |           | Qualcomm quick charge 4.0 and USB Power Delivery 3.0   |  |
| Max individual port load at 5 V      |           | 3 A  |  |
| Max individual port load at 9 V      |           | 3 A  |  |
| Max individual port load at 12 V     |           | 3 A  |  |
| Backup duration at 30W combined load |           | 1 hour   |  |
| Input                                |           |  |  |
| Voltage                              |           | 24 V   |  |
| Current                              |           | 2 A  |  |
| Connector outer Ø                    |           | 5.5 mm   |  |
| Connector inside Ø                   |           | 2.5 mm   |  |
| Batteries                            |           |  |  |
| Included battery type                |           | 5 PCS 2500 mAh Button type 18650 Li-Ion  |  |
| Reverse polarity protection          |           | Mechanical prevention of completing electrical circuit in case of wrong battery orientation.           |  |
| Electrical safety circuit            |           | Individual cell voltage and temperature monitoring   |  |
| Shipping mode                        |           | To avoid discharge during shipping tab needs to be removed before batteries are connected.             |  |
| User interface                       |           |  |  |
| Ready LED                            | Steady on | Battery is fully charged.  |  |
| (Green)                              | Flashing  | Battery is charging.   |  |
| Backup LED                           | Steady on | Input off, battery discharging.  |  |
| (Amber)                              | Flashing  | Input off, battery nearly discharged.  |  |
| Replace batteries LED                | Off       | Batteries are healthy.   |  |
| (Red)                                | Flashing  | Batteries need replacing.  |  |
| Overload LED                         | Steady On | Combined load >30W, backup duration <1h  |  |
| (Red)                                | Flashing  | Combined load too high: Disconnect USB   |  |
| Product type label                   |           | On the rear of the products and includes battery purchase, replacement advice and key data             |  |
| Product UI / Logo plate              |           | For logistics reasons the Logo plate is supplied together wit the cable set as a separate item number. |  |
| Item No.                             |           | 79831  |  |

Version 1.1.1

| Parameter                               | DKT FTTH-BATTERY-2                           |  |  |
|---|--|--|--|
| Package                                 |  |  |  |
| Mains adaptor                           | UKCA marked Type G (UK) 110-240V~; 24V 2A DC |  |  |
| Colour                                  | White with dark grey logo plate              |  |  |
| Material                                | PC + ABS (PC-540)                            |  |  |
| Dimensions [mm] $(H \times W \times D)$ | 138 x 135 x 26.50                            |  |  |
| Marking                                 | Type label and UN3481                        |  |  |
| Item No.                                | 79831  |  |  |

#### FTTH-Battery-2-Connection-kit

#### INTRODUCTION

Besides the FTTH Battery 2 a FTTH-Battery-2-Connection-kit will be needed. The FTTH-Battery-2-Connection-Kit always contains the mains adaptor for FTTH Battery 2, a UI/logo plate and 3 PCS of connection cables to match the specific requirements in terms of supply voltage, plug type and plug dimensions.

#### **EXAMPLE**

| FTTH-Battery-2-Connection-kit |  |                                 |            |  |  |
|-------------------------------|--|---------------------------------|------------|--|--|
| Customization                 |  |                                 |            |  |  |
| UI/logo plate                 | Self-adhesive semi-transparent sticker with protective foil and specified logo |                                 |            |  |  |
| Cable                         | Voltage  | Connector type                  | Marking    |  |  |
| Cable 1                       | 5V   | Female Plug<br>5.5 mm / 1.75 mm | 5V Gateway |  |  |
| Cable 2                       | 5V   | QUSB-B                          | 5V ATA     |  |  |
| Cable 3                       | 12V  | Female Plug<br>5.5 mm / 2.1 mm  | 12V Router |  |  |
