DKT COMEGA

HDMI 2.0, 4K

INTRODUCTION

The HDMI 2.0 xx series is suitable for data rates up to 18 Gbit / s, 60Hz, HDMI 2.0, 3D, UHD / 4k. The cables are tested to ensure that they support the full 18 Gbps bandwidth from the HDMI 2.0b specification with an EMI test. This is done to ensure that cables minimize interference from radio signals

By using a unique anti-counterfeit authentication label on their products, HDMI users promote their ATC-approved high-speed HDMI cables as premium high-speed HDMI cables or premium high-speed HDMI cables with Ethernet.

PRODUCT OVERVIEW

"HDMI 2.0-xxm series"

Parameter	HDMI 2.0-1.5M	HDMI 2.0-2M	HDMI 2.0-3M
Length [m]	1.5	2.0	3.0
Description	HDMI Premium Certified Cable for a bandwith up to 18 Gbit/s, 60 Hz, HDMI 2.0, 3D, UHD/4k		
Marking	Each cable has an unique anti-counterfeiting authentication label.		
Construction	30 AWG Ø-cable: 6 mm, supports HDCP 2.2		
Bandwidth	18 GBit/s		
4k capable	Yes: 2160 p at 60 fps High Dynamic Range (HDR)		
Certification ID	C 215-1.5	C 215-2	C215-3
Item No.	20196	20197	20198
